

# 3<sup>rd</sup> Korea-Vietnam Joint Workshop of Solid-State Circuits and Systems

Jan. 11-12, 2018

HoChiMinh City University of Technology and Education  
HoChiMinh, Vietnam

The Korea–Vietnam Joint Workshop of Solid-State Circuits and Systems is co-organized by **Institute of Korean Electrical and Electronics Engineers (IKEEE)** and **HoChiMinh City University of Technology and Education**. The workshop will be held in HoChiMinh City University of Technology and Education, HoChiMinh, Vietnam on January 11-12, 2018. The workshop is the exchange forum of researchers in the field of theory, design, and implementation of solid-state circuits and system. More information of workshop can be found at the following website. <https://isdlute.wordpress.com/>

## TOPICS OF INTEREST

This year meeting will collect contributions in all area of Circuits and Systems, including but not being limited to the following topics:

- Analog / Mixed Signal Circuits and Systems
- Digital Circuits and Systems
- Beyond CMOS: Nano and Hybrid Systems, Nano-scale Memristor Circuits
- Neural Network and Neuromorphic Engineering, Brain-inspired Circuits and Systems
- Energy Harvesting Circuits
- Biomedical Circuits and Systems
- Sensory Circuits and Systems
- Embedded Systems
- Advanced Technologies for IoT Applications

## IMPORTANT DATES

The prospective authors are invited to submit full papers or abstracts until December 30, 2017.

Submission website: <https://easychair.org/cfp/VKWS-3RD>

Registration: Until Jan. 5, 2018 at website <https://isdlute.wordpress.com/registration/>
