**MOE Regulations Regarding International Students Undertaking Studies in Taiwan**

Article 2 An individual of foreign nationality, who has never held nationality status from the Republic of China ("R.O.C.") and who does not possess an overseas Chinese student status at the time of their application, is qualified to apply for admission under this regulation.

An individual of foreign nationality, pursuant to the following requirements and who has resided overseas continuously for no less than 6 years is also qualified to apply for admission under this regulation. However, an individual who plans to apply for study at a department of medicine, dentistry or Chinese medicine must have resided overseas continuously for no less than 8 years.

1. An individual who also is a national of the R.O.C. , but does not hold or has had a household registration in Taiwan.
2. An individual who also was a national of the R.O.C. but has no R.O.C. nationality at the time of their application shall have an annulled status regarding their R.O.C. nationality for no less than 8 years after an annulment of R.O.C. nationality by the Ministry of the Interior.
3. Regarding individuals mentioned in the preceding 2 subparagraphs, they must not have studied in Taiwan as an overseas Chinese student nor received placement permission during the same year of the application by the University Entrance Committee for Overseas Chinese Students.

According to the Education Cooperation Framework Agreement, a foreign national who was selected by a foreign government, organization, or school, and does not hold a household registration from the time of their birth is not subject to the limitations as prescribed in the preceding 2 paragraphs after receiving the approval from the authorized educational government agencies. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year period.

The six and eight year calculation period as prescribed in Paragraph 2 shall be calculated from the starting date of the semester (February 1st or August 1st) as the designated due date for the time of study.

The term "overseas" as prescribed in Paragraph 2 is limited to countries or regions other than Mainland China, Hong Kong and Macau; the term "reside overseas continuously" means that an individual may stay in Taiwan for no more than a total of 120 days per calendar year.

The only exceptions to this method of calculation are for those who fulfill one of the following requirements with written supported proof:

1. Attended overseas youth training courses organized by the Overseas Compatriot Affairs Council or technique training classes accredited by the Ministry of Education (the "Ministry");
2. Attended a Mandarin Chinese language center at a university/college of which foreign student recruitment is approved by the Ministry, and to which the total length of stay is less than 2 years;
3. Exchange students, whose length of total exchange is less than 2 years; or
4. An Internship in Taiwan which has been approved by an authorized central government agency, to which the total length of stay is less than 2 years.

An individual, who has both foreign and R.O.C. nationalities and has applied for an annulment of their R.O.C. nationality before February 1, 2011, the effective date of this amendment, will then be qualified to apply for admission as an international student under the amendment effective before February 1, 2011 and will not be subject to the limitation as prescribed in Paragraph 2.

Article 3 An applicant of foreign nationality, concurrently holding a permanent residence status in Hong Kong or Macao, having no history of a household registration record in Taiwan and, at the time of application, has resided in Hong Kong, Macao, or another foreign country for no less than 6 years is qualified to apply for admission under these regulations.
