

Junior Managers Program at Bosch (Management Trainee Program)

Research & Development Department

Bosch Vietnam Co.,Ltd. in Dong Nai Province (Long Thanh IZ) is its first investment in Vietnam into high tech production facility for Pushbelts used in vehicles with Continuously Variable Transmission (CVT).

For our Production area, we are looking for outstanding graduates with a passion for technical details and a creative approach to problem solving.

- Flexible starting date
- Your own tailored program
- 4 – 6 stages (including one **overseas**, e.g. Germany, USA etc)
- Preparation for leadership tasks
- Mentor from Top Management
- Exposure to work with Management Team

Requirements:

- Leadership potential
- Preferably Master Degree or higher with above average GPA (mechanical engineering, aeronautical or aerospace engineering or similar)
- International experience during your studies or working
- Fluent in English

If this program fits your professional expectations, please apply for our Junior Manager Program. Together, we will lay the foundations for your future as a manager at Bosch in 18 to 24 months.

Please send your application to Ms. Mueller Anja (fixed-term.Anja.Mueller2@vn.bosch.com) or Ms. Klein Anita (fixed-term.anita.klein@vn.bosch.com).
